

Research Committee

A research policy of the Centre guides its research activities. According to the policy, a research committee oversees the overall management of the research activities. Management activities range from evaluation of research proposals to approval of final research reports are guided by the Research Committee of the Centre.

Formation of the Research Committee

The research committee is headed by the Vice-Chancellor of Jahangirnagar University. All of the MDSs of BPATC are the internal members and another two experts, nominated by the Board of Governors, are the external members of the committee. The Director of the R&D department acts as the member-secretary of the committee.

Function of Research Committee

According to the Research Policy (2009) of the Centre, functions of the committee are -

- (1) Reviewing of all research proposals of the Centre and making recommendations.
- (2) Approving final research reports on the basis of the comments from concerned evaluators.
- (3) Commenting about publication of research reports.
